Free Video Loan

We are always happy to answer questions and give advice during any and all phases of your vine development. We can lend you a 15 minute video that covers all steps in planting and gives you a tour of our nursery to see how your vines were prepared. Just mark Yes on the card at the video loan section and mail card to Sonoma Grapevines.

• Finally, at delivery we hope you enjoy this year's collector's cap. It was designed by famed wine country artist Michele Collier and celebrates the huge collection of clones we have been offering the industry.

Planting Guidelines
Important when planting protect vines from direct sunlight!
(For more information, ask for our video).
